National Veterinary Services

396795	Sting Free Barrier Spray Select	200ml
396783	Sting Free Barrier Spray Select	100ml

Sting free Skin Barrier Spray

that utilises next generation silicone technology to create a protective shield against the harmful effects of body waste, enzymes, and adhesives. This barrier forms a thin, breathable film on the skin, providing protection without compromising the adhesion of any subsequent dressings.

First aid essential

- ✓ Sting free, even on broken/sore skin
- ✓ Will not build up on skin/fur causing matting and irritation
- ✓ Dries quickly – apply next adhesive in seconds
- ✓ Will not cause build-up of layers
- ✓ Does not bond skin folds

Great for cats

Utilises a silent spray action designed to avoid startling patients during use. Can be used on all mammals.

Sprays at any angle

Possess a spray head design which creates an even spray action that allows the can to be sprayed at any angle.

Environmentally friendly

Uses environmentally friendly propellant which is not released from the can during application.
